

YMCKO RIBBON

First-Class Quality Images

Evolis High Trust® original color ribbons have been designed to produce the very best image quality with Evolis card printing systems.

You can use our YMCKO ribbon for every single or double-sided color printing.

In addition to the standard colors (Yellow, Magenta, Cyan and Black), YMCKO ribbons apply a protective varnish (O) that protects the card's printed elements.

Whole panels (length: 98 mm / 3.86")

ADVANTAGES

Capable of reproducing up to 16 million colors, all ribbons are formulated to produce sharp, bright images and clear text. The protective varnish allows a better lifespan of your prints. Printed cards can, therefore, be used for up to 3 years.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

GENERAL SPECIFICATIONS

- For single or dual-sided color printing
- Ribbon in PET with thin layer of specialized coatings. Very low concentration of colorant insoluble in water.
- 5 whole panels - Yellow, Magenta, Cyan, Black, Overlay: 98 mm length
- Overlay thickness: 1.1 microns
- Compatible with PVC or composite cards
- Printing lifespan: up to 3 years
- For dye-sublimation and thermal transfer technologies
- Printing process: diffusion temperature above 50°C / 122°F.

PRODUCT INFORMATION:

- Color Ribbon
- 5 panels (Yellow, Magenta, Cyan, Black, Overlay)
